

1) Select

and take note of at least **10 Key Words** after watching different Videos from optical fiber manufacturing processes or manufacturers.

Refraction, Optical Spectrum, Glass Diameter, Dispersion, Polarization, Quality Control, Testing Process, Measurements, Doped Fiber, Photosensitive, Plasma, Silica, Tolerances, Geometry Control.

2) Identify

the manufacturer and the type of fiber produced by each one.

Video 1:

- **Manufacturer: OFS**
- **Type of Fiber Produced:**
 - **All Wave Zero Water Peak (ZWP) Fiber**
 - **All Wave+ ZWP Fiber**
 - **All Wave One ZWP Fiber**
 - **All Wave FLEX ZWP Fiber**
 - **TeraWave Fiber**
 - **TeraWave ULL Fiber**

Video 2:

- **Manufacturer: FiberCore**
- **Type of Fiber Produced:**
 - **SM Fiber**
 - **MM Fiber**
 - **Multicore Fiber**
 - **Rare Earth-Doped Fiber**
 - **Application-Specific Fiber**

Video 3:

- **Manufacturer: Prysmian Oceania**
- **Type of Fiber Produced:**
 - **SM Fiber**
 - **MM Fiber**
